- Enterprise Architects
- Business Architects
- Security Architects
- Info Sec Specialists
- Software Development Managers

## Fixed Price Model

In a fixed price contract, the contractor agrees to complete a project within an approved total cost

## Time and Material Pricing Model

Time and material pricing is a method of billing the project owner based on hourly labor costs and the price of materials used. Usually, hourly rates, costs for using equipment, markups for any subcontractors, and materials are agreed upon ahead of time

## Request for Quotation, Request for Proposal and Request for Information

- We pride ourselves on our ability to swiftly respond to RFQs with accurate and competitive quotations.
- Our RFP responses involve a detailed proposal development process that includes comprehensive project plans, timelines, and deliverables
- In response to RFIs, we focus on sharing relevant and insightful information about our capabilities, experience, and industry expertise.
